

CENTER FOR DEVELOPING MINDS
EARLY LEARNING CLINIC

Peer Playgroups

Weekly, one-hour classes.

10-12 week sessions.

Lead Instructor:

Cassie Korbfort, M.S.Ed.,

Child Development Specialist

Peer Playgroups are small groups for children, ages 2-8 years old, with ASD and difficulties with navigating social interactions. This play-based group is focused on emotion identification/regulation, communication, connection, self-awareness, and strengthening problem-solving skills.

Classes will include play, group activities, and brief teacher-led instruction. Topics will include:

- Making friends
- Emotional regulation
- Collaboration
- Volume control
- Peer communication
- Turn taking
- Problem-solving strategies

The sessions will be held at Center for Developing Minds in our new Early Learning Clinic. Course fee is \$150 per class, for 10-12 week sessions. Classes are carefully curated to benefit all participants and class size is limited to provide students with personalized attention. To schedule an intake appointment with our child development specialist for class placement, please contact the clinic at 408.358.1853.
