

CENTER FOR DEVELOPING MINDS

Inclusive PlaySchool Classes

Monday through Friday for ages 2-5.

Rolling admissions for each session (as space allows).

Has your child been, or is likely to be, unsuccessful in a traditional daycare or preschool setting?

Interested in a specialized program that recognizes your child's strengths while supporting their struggles?

Playschool highlights:

- Completely individualized support from caring staff and custom curriculum designed for your child.
- Formal progress meetings with parents every two months.
- Small group size to ensure personalized attention. Classes have a maximum of 12 children, and a maximum student to clinician ratio of either 4:1 or 3:1.
- Daily snack and assisting with feeding goals, if applicable.

Children will learn through a combination of unstructured and structured play, group activities, and personal support.

Child development specialists will create an individualized intervention plan for each child with early academic, social-emotional, and behavior goals in collaboration with parents. Parents will receive summaries of class activities and skills used. Data will be taken to track progress and update goals.

Children are not required to be toilet trained.

Cost: 5 days/week at 2.5 hours/day is \$800/week.

Initial intake appointment required.
